Summary

As a dedicated web developer, I excel in UI design, crafting engaging user experiences. My technical proficiency is grounded in React and Next.js, ensuring the creation of responsive and modern web applications.

Skills:

React.js, Next.js, JavaScript, and CSS.

Trained in Bootstrap, Docker, Git, and Linux OS.

Experience

Web Developer

Pro Web and SEO

Feb 2023 - Jul 2023 (6 months)

As a Web Developer, I play a crucial role in designing and developing innovative websites and applications for clients. With expertise in HTML5, CSS3, Bootstrap, WordPress, and React.js, I contribute to creating visually appealing and highly functional web solutions.

React Developer

SYNC INTERN'S

Apr 2023 - May 2023 (2 months)

Week 1: Developed a Weather App using React and Open Weather API to show real-time weather data based on user's location.

Week 2: Built a Messenger App with React and Firebase, enabling real-time chats. Users can sign in via Google and access chats stored in Firebase Realtime Database.

Week 3: Designed a Resume Builder Web App using React JS Vite, allowing users to craft custom resumes. Deployed on Netlify.

Education

Sindh Madressatul Islam University (SMIU)

Bachelor of Science - BS, Computer Science

Aug 2020 - Aug 2024

I am a final-year student pursuing a BSCS degree at Sindh Madrasat UI Islam. I have studied Object Oriented Programming, Calculus, Data Structures and Algorithms, and Full Stack Development using JavaScript. Currently, I am focusing on Software Development Cycles.

PIAIC

Cloud Native Development, DevOps Engineering

Jun 2022 - Nov 2023

I've developed a broad skill set during my academic journey, spanning Linux, DevOps tools, front-end and back-end development with HTML, CSS, JavaScript, Bootstrap, and React.js, API integration,

databases like MongoDB and SQL, and cloud technologies like AWS. This diverse skill set positions me well for success in the dynamic technology field.

Licenses & Certifications

JavaScript Certificate - HackerRank
